

PRISM

science behind change management

“The world is changing very fast. Big will not beat small anymore. It will be the fast beating the slow.”

Rupert Murdoch

What we stand for.

Our Objectives

Plan the change meticulously and ensure buy-in from all stakeholders.

Realize the change initiatives, create mitigating plans & build support.

Implement the change, build trust, train users & communicate often.

Sustain the change, create new ways of working and enforce the change.

Measure and monitor the change, link business metrics to change metrics.

Our Vision

To become the only change management platform to empower organizations to co-create change networks, provide the tools for rapid change deployment and drive faster metrics for a holistic view on change success.

Our Mission Statement

To make business change a measurable and sustainable reality.

The world of business is relentlessly changing at an unprecedented pace, leaving global commerce in a state of persistent flux.

Technological evolution, innovation, increased regulations, a weakened supply chain, customer trends, exponential growth within the ecommerce market and global instability, is creating tsunami like shock waves.

Business leaders are overwhelmed and baffled over the rate of change, which business change initiative takes precedent and most importantly how to rapidly develop a strategy to ensure faster change adoption.

PRISM has been exclusively designed to respond to today's turbulent business needs. With a streamlined methodology, digital processes, tools and techniques, PRISM is a complete change, training and communication management tool.

PRISM - Rapid change management SaaS Solution.

PRISM SaaS Solution

PRISM has been developed with one thing in mind, to become the best change management SaaS (Software as a Service) platform.

Our Solution looks to

- Provide a plug & play collaborative platform, to manage the change management process
- Engage business user community from outset
- Create a value for the change initiative
- Speed up the change process & adoption
- Reduce your total cost of ownership
- Increase return on investment
- Provide visibility of change success
- Create an inhouse change management talent pool to manage future business initiatives.

Our strategy guides you to success.

Methodology

PRISM encompasses every aspect of a change & its journey. From identification of a change, at its current state, till it reaches its final desired state.

Our framework is data driven, providing you the ability to make strategic choices on managing change.

Single business initiatives or large transformational projects, PRISM's objective is change success or early detection of probable failure, leading to immediate change correction.

Our platform provides immediate visibility into the success or failure of a change program.

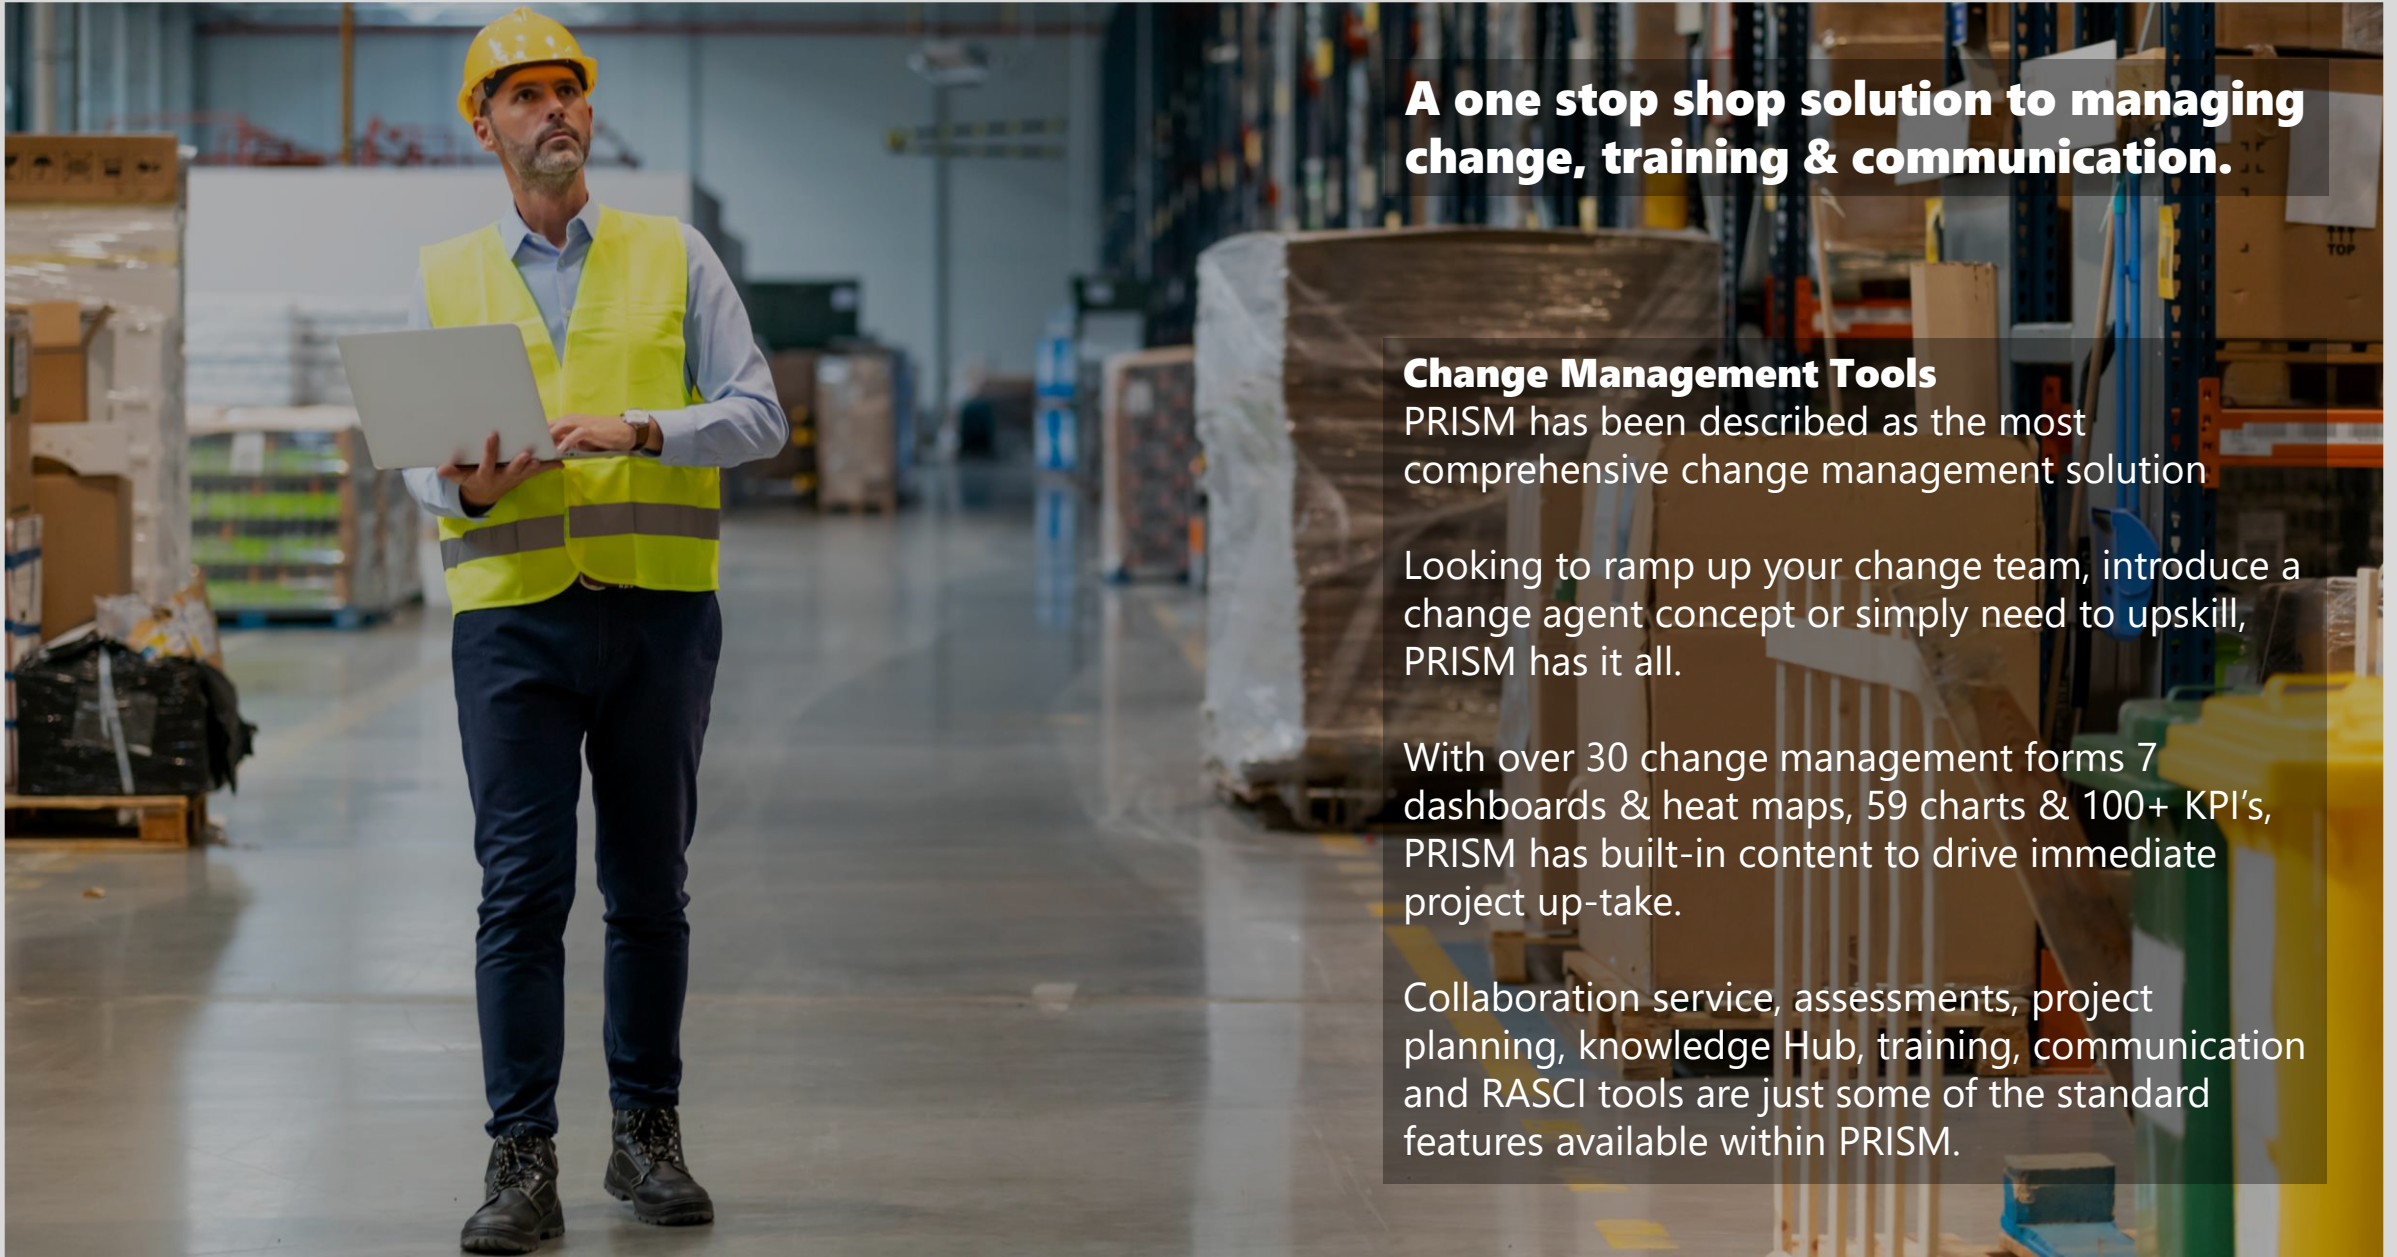

We keep training relevant, business specific and never over complicate it.

Change Management Training

No one shoe size fits all projects. We'll design a course around your change management essentials and support you through it.

We understand every business is unique, even within the same industry. That's why our consultants will tailor the training based around your real life business case and take you through the change management approach, step by step and to meet change success.

A one stop shop solution to managing change, training & communication.

Change Management Tools

PRISM has been described as the most comprehensive change management solution

Looking to ramp up your change team, introduce a change agent concept or simply need to upskill, PRISM has it all.

With over 30 change management forms 7 dashboards & heat maps, 59 charts & 100+ KPI's, PRISM has built-in content to drive immediate project up-take.

Collaboration service, assessments, project planning, knowledge Hub, training, communication and RASCI tools are just some of the standard features available within PRISM.

Boost build-up & success through PRISM change management content.

Change Management Content
Change is complex, managing it requires resources, commitment, patience and a lot of content.

That's why PRISM comes fully inclusive of all the project documentation you will ever need to support your project, whilst using our change platform.

- Methodology and best practice approach
- Charter and strategy prototypes
- Building sponsorship & buy-in techniques
- Change network and extended change team
- Change manage resistance techniques
- Management of change through transition
- Change sustainability and measurability
